1. The following is an examiner's statement of reasons for allowance:

The present invention pertains a circuit and a method thereof for identifying a defect location in a set of latches. The prior arts of record, however, does not teach the circuit having the combination features of parallel shifts the contents of a first set of latches into the second set of latches via a parallel shifting means, and comparing the output of the second set of latches with a predetermined bit sequence to identify a location of a defect in a defective set of latches, the defective set of latches being either the first or second set of latches and further identifying whether a wiring of the defective set of latches is on a first wiring level or a second wiring level, wherein the first set of latches being wired on a first wiring level and the second set of latches being wired on a second wiring level and each latch in the second set of latches being coupled with a corresponding latch in the first set of latches. Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 1-29 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (571)272-3831. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.
